

PRESBYTERIAN
SENIOR LIVING

Dear Associate/Friend,

I am writing to inform you that Presbyterian Senior Living and Westminster Communities of Florida have mutually decided not to move forward with the two organizations' proposed merger.

After much consideration and a deeper assessment of what a joint organization would look like, we determined the best way to serve our residents, our families, our staff and our community is to remain an independent organization.

The merger exploration was a deeply satisfying experience. We enjoyed working collaboratively with Westminster Communities of Florida. The organization will remain our much-respected industry colleague – and friend. We truly wish them well.

As always, our focus is on bringing our Presbyterian Senior Living Mission to life to ensure our residents and future generations of seniors enjoy active, healthy lifestyle choices within dynamic, wellness-focused communities.

Warm Regards,

James Bernardo
Acting Chief Executive Officer
